MEDEVAC INFUSION PUMP INSTALLATION KIT

The ICARUS Infusion Pump Installation Kit allows for safe and secure installation of the BodyGuard 121 Twins infusion system into aircraft and land ambulances. Each kit allows for the installation of up to two, dual channel Infusion devices. The kit is currently certified by Transport Canada for installation in both fixed wing and rotary aircraft with up to 21G crash loading requirements, and can easily be certified for most other airborne Medevac platforms. The field installable kit comes with all materials and concise installation instructions.

FEATURES

- Single clamp quick release bracket holds 2 Dual Channel BodyGuard 121 pumps, with L/R side brackets for fluid dispensers;
- Fits pole diameters 1-1.25", clamp rotates for either vertical or horizontal orientation;
- Can stack multiple brackets on a single pole;
- Maintains easy access for power cable;
- Compatible with Ferno, Aerolite, Heli-Mods racks;
- No special tools required for installation
- Made from machined aircraft grade aluminum;
- No airworthiness limitations
- Transport Canada STC O-LSH19-053D (AW139), O-LSA19-147D (PC-12)

ABOUT ICARUS AEROSPACE

ICARUS Aerospace Services Inc. is a Transport Canada, F.A.A. and EASA approved design, certification and manufacturing organization that specializes in aircraft modifications, engineering services, special mission aircraft conversions, logistics support and integrated kit solutions. Facilities are located in Toronto. Contact us: info@iaero.ca for more information.
