AW139 PILOT & CO-PILOT SEAT RE-UPHOLSTERING

The ICARUS seat re-upholstering service provides an ergonomically designed replacement seating cushion and complete seat cover to increase cockpit crew efficiency. Superior absorption of engine and rotor vibrations, coupled with high quality materials serve to increase pilot and co-pilot comfort, effectiveness, alertness and overall operational control. The replacement kit was designed in accordance with FAR requirement 29.853 and is a cost effective means of ensuring crew discomfort or fatigue are not factors during normal or extended operations. This service requires the seats to be returned to our facility in Canada where we will provide a nominal turnaround time of 3 weeks.

NEW: An optional genuine sheepskin top cover provides for additional comfort and its easy removal makes for a personalized seating configuration whereby crew members can increase their level of virus isolation by using only their own covers.

Before

After

FEATURES

- Complete replacement of pilot seat dress cover;
- High quality leather, providing a durable finish and long lasting repair minimizing the need for maintenance and downtime;
- Upgraded adhesion and sewn-in fabric for further pilot comfort minimizing fatigue;
- No structural changes to the seat;
- Avoids costly OEM repairs or replacement;
- Easy to wipe down/disinfect;
- **OPTION:** Additional sheepskin seat top-cover - completely removable and washable. Promotes compliance with COVID19 health and safety initiatives, as well as prolonging the life of the seats. *Available separately*

Optional
