EO/IR MOUNT PROVISIONING KIT for BARON G58

The ICARUS EO/IR provisioning kit provides a certified structural mount for the Wescam MX-10 turret. The kit can be adapted and certified to mount other turrets – please enquire.

ICARUS provides turnkey solutions for ISR integration for most fixed and rotary wing aircraft. We can supply a fully certified ISR installation including all mission sensors, consoles, computers and controls per customer requirements - please enquire.

FEATURES

- Belly mounted for full 360 sensor FOV;
- Lightweight machined aluminum alloy mounting plate;
- Minimal structural modifications to airframe – allows for easy conversion back to initial configuration;
- Negligible effect on flight performance;
- Flight with or without sensor installed;
- Installed in less than a day, requiring no special tools*;
- Available as a kit or we can install for you;
- Transport Canada STC O-LSA18-106/D; FAA STC SA04314NY;

*Structural provisions only
